Paints & Glass,

27 HUDSON AVE.

ALBANY, N. Y.

IMPORTANT INFORMATION.

We invite your attention to our PATENT DRY SIZED KALSOMINE and FRESCO PAINTS, which for years have been **STANDARD** in the market.

They are carefully prepared from the finest selected materials, and are offered for sale in the most finely powdered condition, simply requiring to be mixed with water to fit them for use. **No poisonous matter enters into their composition.**

Pure White and a variety of beautiful tints.

The **advantages** of our preparations are:

They are **ready for immediate use, requiring no experiment whatever,** as the color and quality are determined before they go into the hands of the consumer.

They possess strong disinfecting properties, and can be effectually used in cleansing and rendering healthful the walls of apartments impregnated with germs of disease.

Ready for use by adding water only.

Can be mixed and used by any one.

Can be applied with the greatest ease and facility, and when dry will present a smooth, rich and even surface, which **will not rub or scale from the wall.**

If used according to directions, will work well upon absorbent surfaces; hence the necessity, as heretofore, of preparing walls to stop their suction, (except in extreme cases,) is overcome.

Will save the waste of materials and loss of time common with the old mode of mixing to produce desirable tints, etc.

Will not fade in the packages, but **will keep for years without change in color or quality.**

Packed in strong manilla packages, of box form, holding five pounds, with full directions for use. Also packed in bulk, in barrels of 300 pounds, in half-barrels of 150 pounds, and boxes of 50 pounds nett, and being in a dry condition, can be cheaply transported.

Painters and decorators who will give these goods an impartial trial, will find their interests best served by using them. Dealers will find them to meet with ready sale and universal approval.

If you cannot obtain our goods at the stores, send us the address of a responsible dealer, and we will send him prices, terms, etc., or he can correspond direct.

TDCAT 1863 PAT'D 1867

GRAND CENTENNIAL MEDAL AND DIPLOMA

AWARDED, 1876.

Report of the Judges of the American Institute, 1874.

"We consider the Prepared Kalsomine and Fresco Paints decided improvements and indispensable articles that have long been wanted by Painters and Housekeepers, and we consider them of great value, and improvements better than any known to us, and entitled to a high award."

Report of the Judges of the American Institute, 1875.

"These articles—Johnston's Dry Sized Kalsomine and Fresco Paints—are strictly articles of great merit, and received a Bronze Medal last year. A new and very important feature of the Kalsomine and Fresco Paints is the disinfectant qualities that are so ably combined, and which are most worthy of notice."

The above report was made by the following named gentlemen: and a Silver Medal was awarded.

UNITED STATES CENTENNIAL COMMISSION

INTERNATIONAL EXHIBITION, 1876,

PHILADELPHIA.

The United States Centennial Commission announce the following report as the basis of an Award to HENRY M. JOHNSTON, New York, for KALSOMINE AND FRESCO PAINTS.

REPORT.—That these paints are well prepared for use in plain and decorative distemper painting, without experiment by the user. The glue is ground in an impalpable powder with the colors and other component parts, and the admixture of about two per cent. of strong disinfecting substance keeps the solution of the colors from becoming putrescent for a long time after mixing with water, and imparts to the paints the quality of disinfecting infected surfaces.

A. T. GOSHORN, *Director General.*
Attest: J. L. CAMPBELL, *Secretary.* J. R. HAWLEY, *President.*

Report of the Judges of the Maryland Institute, 1878.

The Judges beg leave to report, that "they have carefully examined the article presented to them for consideration, and, in their opinion, consider it entitled to rank in the grade of merit of its class, as a ***No. 1 Article;*** for the following reasons: It does not require much time to prepare it for use, is of good covering properties; and well mixed, and easily applied; and well adapted to walls and ceilings."

(Signed,) A. F. LUSBY, *Actuary.*

"After varied experience with different kinds of Kalsomine, we have settled upon "Johnston's" as being by far, the best article in the market. **It is always reliable."**

F. W. DEVOE & CO., (Catalogue 1883.)

NEW YORK, Oct. 30th, 1878.

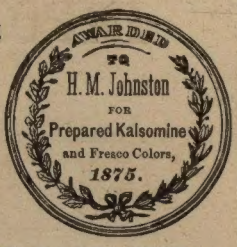
Mr. H. M. JOHNSTON,

Dear Sir:—We have sold your "Patent Standard Kalsomine and Fresco Paints" for over two years past, and we cheerfully recommend them to the trade and public generally, as possessing all the merit claimed for them. All of our customers who have used them speak of them in the highest terms. We consider that they are unquestionably the best articles for the purpose ever introduced to the trade. Yours Truly,

WADSWORTH, MARTINEZ & LONGMAN.

American Institute Awards:

BRONZE MEDAL, 1874.
SILVER MEDAL, 1875.
Diploma of Maintained Superiority, 1876.



MARYLAND INSTITUTE, 1878.

OHIO STATE FAIR, 1881. MICHIGAN STATE FAIR, 1881.

GRAND MEDAL AND DIPLOMA,
Centennial Exposition, 1876.

CAUTION.

The wide-spread popularity of my PATENT KALSOMINE and Fresco Paints having induced unscrupulous parties to foist upon the market worthless preparations, under various names, purporting to be for the same purposes, I caution the public to GUARD AGAINST such FRAUDS, by seeing that my NAME and TRADE MARK are on every package.

H. M. JOHNSTON, Patentee.

SPECIAL NOTICE.

These goods are strictly first-class, and the original and only prepared Kalsomine in a dry form for which Letters Patent have been granted. Warranted full weight of material, and exactly as represented on Sample Card—not a common wash, but a ready and convenient Paint for inside work on stone, brick, wood or plaster.

FIVE POUNDS will make about a gallon, which WILL COVER, WITH A GOOD BODY, OVER 400 SQUARE FEET, one coat. WILL KEEP SWEET and preserve all its good qualities FOR MONTHS, after being mixed, IN A WET STATE; and will not injure the finest brushes. Testimonials from scientific and practical men all over the world. Ask for

"Johnston's Patent Dry Sized Kalsomine,"

and see that you DO NOT GET ANY POOR SUBSTITUTE, claiming to be equal to and superior to Kalsomine.

Sample Cards having come to my notice showing poor attempts at imitating my tints and colors, and with almost the identical reading matter as my own, intended to deceive the inexperienced, I warn the buyer to see that my Trade Mark and name appear on every package.

H. M. JOHNSTON, Patentee.

See "IMPORTANT INFORMATION."

DRY SIZED

KALSOMINE

Brilliant White and Elegant Tints.

PURIFIES AND BEAUTIFIES.

No poisonous matter enters into the composition. It supplies a need long felt by every Kalsominer and Housekeeper. With this article a uniformly handsome result is obtained without the tedious preparation necessary with all other compounds.

Mixed in Five Minutes ready for the Brush.

AN INEXPERIENCED PERSON CAN USE IT.

FROM THE

DIRECTIONS FOR MIXING THE KALSOMINE

can be judged the simplicity of its preparation.

To the contents of this package (5 pounds) add 2½ pints absolutely boiling water, stir it thoroughly until the glue is completely dissolved and the mixture becomes smooth and free from lumps, then add 2½ pints of cold water, (the colder the better, and be sure not to use any more water than the proportions given,) and stir it thoroughly in the mixture, and when cold apply with a Kalsomine brush in the usual manner.

Packed in strong manilla packages of box form, containing 5 pounds, which, with the addition of water as per directions, will cover over 400 square feet of surface with one coat.

To ascertain the number of square feet of any room.

Multiply length of room by 2, also width by 2, and add them together. Multiply the result by number of feet in height, which will give number of square feet in side walls.

EXAMPLE.—2 Sides 15 feet (each) long,.. 30 feet.
2 Ends 12 feet (") " .. 24 "
54 "
Multiply by Height,..... 11 "
594 "

Which gives number of square feet of side walls in room 15 feet long, 12 feet wide and 11 feet high.

For ceilings, multiply length by width.

A HANDSOME WALL GREATLY FURNISHES A ROOM.
